

Seminar Uddeholm

In June 2018, voestalpine High Performance Metals Schweiz AG offers in cooperation with Uddeholms AB a technical training in the area of tool steel. The focus is on the production and the applications of tool steels. Attention is paid to the optimum choice of steel, machining, heat and surface treatment as well as to the production increase along the tool production chain. In addition to the specialist lectures, a factory tour is on the program. Also for the physical well-being is provided with the Swedish hospitality. As a special event the ceremony commemorates the 350th anniversary of Uddeholms AB.
